

Joint Statement -Transition of Thrive Disability Services's staff and participants to Nexus Inc

After negotiations with Administrators, Nexus Inc has assumed control of service delivery to clients of Thrive Disability Services effective 20 May 2025.

Thrive has been providing disability services in the North and North West of Tasmania since 2019, but its owner (TCS Integrated Services PTY LTD) entered Voluntary Administration on 9 April 2025.

Nexus has been operating Thrive support services under a license from the Administrators since the middle of April in order to ensure that Thrive clients receive continued supports.

An agreement was reached with the Administrators that Thrive will cease business 19 May 2025, at which point Nexus would take full responsibility for service delivery. Thrive staff have been offered continuing employment.

Nexus CEO Mark Jessop said "it was very important for us that Thrive clients continued to receive support from the faces they knew. I appreciate the faith put in us by the staff and clients of Thrive and I look forward to welcoming them to the broader Nexus family."

Nexus is the largest Tasmanian based disability provider with offices in Burnie, Launceston and Hobart. It employs over 650 Tasmanians and supports over 350 adults and children who require assistance to live the life they choose.

About Nexus Inc

Nexus Inc (Nexus) is an independent Tasmanian not for profit organisation providing disability support services since 1998. Nexus provides services in supported independent living, capacity building, community access, children and youth, complex support, and allied health. Nexus supports clients from the North West to the far South of Tasmania.
